RICKY NUGRAHA

Software Engineer | AI Engineer

Jakarta Selatan, Indonesia | +62 813-8761-3515 | rickynugraha1215@gmail.com

Portfolio | GitHub | LinkedIn

PROFILE

Software engineer experienced in web development, AI integration, and IoT applications. Built Hexa.Simulator independently, from frontend and backend to device simulation logic. Worked with Python for RAG document processing, and supported Linux server operations and application deployments.

TECHNICAL SKILLS

Languages & Frameworks: Go, Python, JavaScript, TypeScript, React, Svelte/SvelteKit, Laravel

AI & Data: LLM integration, RAG, document ingestion, parsing, text chunking, SQL

Backend & IoT: REST API, PostgreSQL, MySQL, Supabase, MQTT, TCP, HTTP

Tools & Infrastructure: Linux (Ubuntu), Docker, Git/GitLab, SSH, server troubleshooting

WORK EXPERIENCE

Junior Software Engineer – AI | PT Hexacode Teknologi Indonesia

Jun 2026 – Present

- Built Hexa.Simulator from scratch, including its Svelte/SvelteKit frontend, Go backend, database integration, and IoT simulation logic.
- Developed device-testing scenarios for signal loss, unstable connections, offline status, and recovery using MQTT, TCP, and HTTP.
- Worked on Hexa.AI and Hexa Chat Live: Python-based document ingestion, parsing, and chunking for RAG, plus LLM and chatbot integration.
- Developed frontend and backend features, and handled debugging, maintenance, and application testing.
- Supported Ubuntu Linux server operations, application updates and deployments, Git/GitLab troubleshooting, and service checks.

Full Stack Developer | PT Resvara Balawan Prakasa

Feb 2026 – Jun 2026

- Built a company profile website from scratch and developed internal web applications.
- Worked on frontend and backend features, database integration, and troubleshooting.
- Provided IT support for computers, printers, and other office devices.

IT Support | PT Tigris

Mar 2025 – Jan 2026

- Installed software, troubleshot computers and printers, and supported office network connectivity.
- Handled operational data entry, administrative records, and reports.

SELECTED PROJECTS

Hexa.Simulator

Svelte/SvelteKit · Go · PostgreSQL/MySQL · MQTT/TCP/HTTP · Docker

Independently built a web-based IoT simulator with virtual devices and scenarios for telemetry, network degradation, and connection recovery.

Hexa.AI & Hexa Chat Live

Python · RAG · LLM integration · Svelte · Go

Worked on document ingestion, parsing, and chunking for RAG workflows, and built AI chat application features integrated with backend services.

ERP & Internal Business Systems

React · Laravel · MySQL

Developed web interfaces, backend functionality, and database-connected features for internal business processes.

Linux Server Operations

Ubuntu Linux · Git/GitLab · SSH · Docker

Supported application deployment, code updates, service checks, and troubleshooting in a Linux server environment.

EDUCATION

B.Sc. in Informatics Engineering | Universitas Indraprasta PGRI

2020 – 2024 · GPA 3.60/4.00

Computer and Network Engineering | SMK Kemala Bhayangkari Delog

2017 – 2020

TRAINING & CERTIFICATIONS

- Dicoding — Front-End Web Developer Expert
- MSIB Batch 6 — Front-End Development (Dicoding)
- Dicoding Bootcamp Batch 9 — Machine Learning / Data Science
- Dicoding — Data Analysis with Python
- Dicoding — Introduction to SQL
